📍 Minna, Nigeria

SUMMARY

Detail-oriented web developer with a strong foundation in JavaScript, HTML, CSS, and Bootstrap, and practical experience architecting and building full-stack MERN applications. Skilled at designing clear project roadmaps and translating ideas into structured, scalable solutions. Passionate about creating engaging, user-focused interfaces and implementing robust backend features, including authentication, admin dashboards, and REST APIs. Known for problem-solving, clear communication, and a commitment to continuous learning and a good record of efficient team work.

EXPERIENCE

Freelance Web Developer (Upwork / Personal Clients)

📅 2024 - Present

- Designed and developed multiple web applications including a full-featured beat-selling platform using the MERN stack (MongoDB, Express, React, Node.js) and Cloudinary for media storage
- Built RESTful APIs for managing beats, user authentication, cart functionality, and admin controls

Independent Web Developer

📅 2022 - Present

Self-Driven Personal Projects

- Developed and implemented user-friendly features for internal web applications, increasing user engagement by 20%.
- Collaborated on a project to refactor the company's main web application, resulting in a 15% improvement in load time.
- Contributed to the maintenance of the website, fixing more than 50 bugs and improving site reliability.
- Developed a [WhatsApp chat](#) tool enabling users to generate and customize conversation simulations for personal or marketing use.

EDUCATION

Bachelor of Engineering in Computer Engineering

Federal University of Technology, Minna

📅 2024 - Present 📍 Minna, Niger State

Beginner

STRENGTHS

★ Project Architecture & Planning

Skilled at designing detailed project roadmaps, breaking down complex ideas into clear, structured development plans for web applications.

★ Resourceful Problem Solver

Consistently able to troubleshoot issues independently, leverage AI tools effectively, and adapt solutions when facing gaps in knowledge.

SKILLS

JavaScript

CSS

HTML

Bootstrap

MERN Stack

Responsive Design

Math Skills

Git

CERTIFICATION

Responsive Web Design

freeCodeCamp

Completed an in-depth curriculum covering HTML5, CSS3, Flexbox, Grid, and responsive design principles. Built multiple projects to demonstrate proficiency.

Quantum Computing (Semester 1)

The Coding School – Qubit by Qubit

Completed coursework exploring foundational quantum computing concepts, quantum algorithms, and quantum programming principles.

INTERESTS

★ Artificial Intelligence(AI)

Work with AI to maximize I and my teams potential to achieve the best results within a short range of time.
